

WE ARE LOOKING FOR ENGINEERS!

Overview

The Malaysian Timber Council (MTC) was established in January 1992 to promote the development and growth of the Malaysian timber industry. We are looking for a suitable candidate to fill the position of an engineer in the various sub-sectors of the timber industry.

The Engineer Placement in the Industry Programme is designed to provide customised training for engineers for employment purposes specifically into the timber industry. Trainings will be conducted at the factories as well as classrooms under the close guidance of competent professionals.
