

MTC FINANCIAL INCENTIVE

PRODUCT TESTING & CERTIFICATION 2026 (FIPT 2026)

The programme offers Malaysian timber-based manufacturers subsidised testing and certification to promote compliance with product quality and safety standards, while enhancing their global market competitiveness. It covers tests and certification for safety, strength, quality, emissions, and termite resistance, among others.

Eligible companies can claim up to 50% of testing or certification costs, capped at RM15,000 per company (or group of companies) once per calendar year.
